

## Z A P Projects (2007/2008)

### MEDICAL

**CLINIC:** Help with renovations, provide equipment including autoclave, examination couch, large fridge for drugs and high-capacity emergency generator, housed in outside storeroom.

**DOCTOR:** Provide and run motorbike for doctor.

**VOLUNTEERS:** Sponsor doctors/dentists/physios/surgeons from the UK to work in Mnazi Moja Hospital, and also in Jambiani Clinic.

**BURSARIES:** Provide bursaries for training nurses at Medical College, including necessary travel, books, examination fees etc. One nurse already working in Jambiani clinic, another to start work in 2008.

**EMERGENCY AID RELIEF:** During recent cholera outbreak, ZAP provided emergency medical staff with food, fuel, telephone credit and chlorine sprays.

### EDUCATIONAL

**JAMBIANI SCHOOL** (Government sponsored): Provide textbooks, teaching aids, sewing machines and IT equipment – purchased and maintained locally.

Provide funds (e.g. travel expenses) for teacher training, both for visiting teachers and existing school staff.

**BURSARIES:** Fund degree courses at Zanzibar University for students and teachers – with the proviso that they should work in Jambiani when qualified.

**VOLUNTEERS:** Sponsor and provide accommodation for qualified teachers travelling to Zanzibar from the UK.

**COMPUTERS/ IT TRAINING:** Assist with teacher's wages for computer studies – Form III pupils and mature students, including ladies from other ZAP classes.

**EXTRA CURRICULAR:** Fund Ladies English class in school for mature village ladies, and assist where necessary with other extra curricular English lessons, including the provision of textbooks, dictionaries etc.

**NURSERY SCHOOLS** (3 schools, 270 children): Assist with teacher training of helpers. Provide nutritious 'porridge' for all children three times a week (organised and run by ladies from ZAP English classes.)

Supply 50kg rice per month to nursery schools to supplement teachers' wages.

## **VOCATIONAL**

**BURSARIES:** Fund college expenses, including fees, accommodation, food, travel, books, equipment and pastoral care for 7 young Jambiani men training in practical trades – currently plumbers, electricians, refrigeration engineers and motor mechanics.

Ensure that these students acquire sufficient experience, and provide advice and assistance with their future careers in Jambiani.

**SEWING CLASSES:** Fund ladies sewing classes in Vocational Centre at Jambiani School (totally renovated by ZAP) – including provision of 7 sewing machines, materials and extra coaching for teachers in Stone Town.

## **ZAP LIBRARY**

ZAP has established and runs a Library/Internet Café/Resource centre in the middle of the village. Local people, especially children, are encouraged to make use of the facilities, including borrowing books, attending reading lessons and downloading educational resources from the internet. For local students this is a free service.

Tourists and businesses using the facilities are charged for internet, printing and copying services, which helps fund the running costs as well as generating publicity for the charity.

## **WATER PROJECT**

Locally run initiative to provide clean fresh water to poor sub-villages in the area in order to combat current recurring cholera outbreaks.

ZAP assists with fund-raising for the project, and sponsored the visit of 23 students from Durham University in 2007 that provided hard labour by digging pipelines to the new borehole.

In May 2007, KTCT (John Humphrys) granted £5000 to ZAP specifically to build a concrete water tank for this urgent task.

## **DISABLED**

The Jambiani Disabled Association (approx. 48 adults, varying disabilities include blind, deaf, mute and amputees) has requested ZAP's help with new initiatives to improve their quality of life. These are commercial, as well as educational and medical, and will form part of our work in the Community in the future.

**All current ZAP projects are affordable and sustainable until 2009. Detailed reports on progress are regularly emailed to us by our Director/Manager in Zanzibar, and the projects are all revisited during trips from the UK by Directors (approx. 3 times a year)**
